S. Comments:Forced wider by another runner near the 100m. Jockey N Callow reported that after settling in a rearward position due to the fast early tempo the field was stretched over a considerable distance, and therefore passing the 1300m he felt there was an opportunity to improve around the field to a midfield position without being caught wide. He went on to say that after commencing a move forward, the tempo of the event steadied resulting in the field compressing, and as a result the position he attempted to obtain was no longer available and as a consequence he was forced to race three wide

S. Comments:Jockey W Pike was unable to offer any explanation for the poor performance of the gelding which he advised failed to quicken from the 700m when asked to improve. Co-trainer C Maher advised that in light of todays performance the stable will now monitor the manner in which the gelding recovers from today's performance and should no obvious abnormality present that may have explained today's performance, the gelding will most likely be spelled. A post-race veterinary examination failed to reveal any abnormalities. A swab sample was taken.

S. Comments:When question in relation to the below market expectation performance jockey H Bowman reported that the gelding over raced on its wrong leg during the middle stages of the event which in his opinion was the major contributing factor to the poor performance. A post-race veterinary examination revealed the gelding to be mildly lame in the near-foreleg. The trainer's representative for the Price/Kent jnr stable was advised they would be required to obtain a veterinary certificate for the gelding prior to it next racing
