

AHC32816

Certificate III in Rural Operations

This qualification provides an occupational outcome in agriculture, horticulture, and conservation land management and at least one and up to four other related industries.

Individuals with this qualification perform tasks in a variety of contexts, which involve some judgement in selecting equipment and services.

Depending on the units selected individuals will be able to seek employment not only in rural industries but also other industry sectors, such as local government, tourism, hospitality, transport, construction, information technology and metals.

Requirements for completion of this qualification

To be awarded this qualification, competency must be achieved in sixteen (16) units of competency made up of:

- Two (2) core units of competency, and
- Fourteen (14) elective units of competency

Your unit selection will be through consultation with your course advisor - this is a Nationally recognised qualification
